

Table of Contents Service Journal Listing 2020

Library & Information Services Department of Research & Innovation

Library & Information Services offers a Table of Contents Service to all physicians and employees of Eastern Health. This service allows you to select current articles from journals that you have selected from the below list. When the library receives the latest issue, the table of contents for that issue will be sent to you by email. Indicate the articles you would like to obtain and return via email. The requested articles will be copied and put in internal mail to you. In some cases, you will be able to access full text yourself and this will be indicated on the top of the email.

To sign up for the service, place a check mark in the boxes of the journals you are interested in, complete the contact information, and then hit the Submit button at the end of the form.

The list is sorted by the broad subject areas of Allied Health, Management, Medical, Nursing, and Other. Within each of those subject areas you will find general and discipline specific listings. Choose as many titles as you wish. Your list can be revised by sending us an email or submitting a new form.

Due to copyright regulations, we can only provide a limited amount of each journal issue and copied articles are sent through internal mail.

Thank you for your interest and support of Library & Information Services. If you have any questions about this, or another service, please email Library.Services@easternhealth.ca.

Barbara Reid

Library Technician
Rm 10-44
Dr. G. B. Cross Memorial Hospital
Clareville
(709) 466-5554

Jordan Pike

Librarian
